

Console Logging System Implementation

Message Logging:

Log Info

Code Sample	Code Output
<pre>173 // Save the current state of pets and active pet ID to localStorage 174 function persistPets() { 175 localStorage.setItem('pets', JSON.stringify(pets)); 176 localStorage.setItem('active_pet_id', activePetId); 177 } 178 //good example of console.info 179 console.info('Persisted pets to localStorage. Active Pet Name: \${getActivePet()?.name 'Unknown'}'); 180 181 const styles = 182 `color: green; 183 font-weight: bold; 184 border: 5px solid green; 185 padding: 4px; border-radius: 4px; 186 background-color: #00ff00; 187 padding: 30px; 188 font-family: 'Segoe UI', Tahoma, Geneva, Verdana, sans-serif; 189 font-size: 15px; 190 `; 191 console.log(`\${% Pets state has been saved to localStorage.`, styles); 192 console.table(pets); 193 }</pre> <pre>console.info('Persisted pets to localStorage. Active Pet Name: \${getActivePet()?.name 'Unknown'}');</pre>	<pre>Persisted pets to localStorage. Active Pet Name: Pet 2</pre> <pre>script.js:1</pre>

Log Warning

Code Sample	Code Output
<pre>121 function clickedPlayButton() { 122 var pet = getActivePet(); 123 if (!pet) { 124 console.warn('No active pet found. Cannot play with pet.');</pre> <pre>125 return; 126 } 127 pet.happiness += playHappiness; 128 129 if (pet.weight > 0) { 130 pet.weight = playWeight; 131 var petImage = \$('#pet-image'); 132 petImage.removeClass('spin'); 133 void petImage[0].offsetWidth; 134 petImage.addClass('spin'); 135 setTimeout(function() { 136 petImage.removeClass('spin'); 137 }, 1000); 138 139 updateActivityLog('Played with pet. Happiness: Happiness increased by ' + playHappiness + ' / Happiness: ' + happiness, 'Weight decreased: Weight decreased by ' + playWeight + ' / Weight: ' + weight-decreased); 140 } else { 141 console.warn('Cannot play: pet weight is already at 0'); 142 updateActivityLog('Tried to play with pet, but weight is already at 0. No changes made. </error>'); 143 return false; 144 } 145 checkAndUpdatePetInDatabase(); 146 }</pre> <pre>console.warn('Cannot play: pet weight is already at 0');</pre>	<pre>Cannot play: pet weight is already at 0</pre> <pre>installHook.js:1</pre>

Log Table

Code Sample	Code Output
<pre>173 // Save the current state of pets and active pet ID to localStorage 174 function persistPets() { 175 localStorage.setItem('pets', JSON.stringify(pets)); 176 localStorage.setItem('active_pet_id', activePetId); 177 } 178 //good example of console.info 179 console.info('Persisted pets to localStorage. Active Pet Name: \${getActivePet()?.name 'Unknown'}'); 180 181 const styles = 182 `color: green; 183    font-weight: bold; 184    border: 5px solid green; 185    padding: 4px; border-radius: 4px; 186    background-color: #e0ffe0; 187    padding: 38px; 188    font-family: 'Segoe UI', Tahoma, Geneva, Verdana, sans-serif; 189    font-size: 15px; 190 `; 191 console.log('Kz Pets state has been saved to localStorage:', styles); 192 console.table(pets); 193</pre> <pre>console.table(pets);</pre>	

Log Group

Code Sample	Code Output
<pre>// Set the active pet based on the clicked tab and update the UI accordingly function setActivePet(petId) { activePetId = petId; console.group('Set Active Pet'); console.log('Active pet changed to:', getActivePet()?.name 'Unknown'); console.groupEnd(); persistPets(); renderPetTabs(); checkAndUpdatePetInfoInHtml(); renderActivityLog(); } console.group('Set Active Pet'); console.log('Active pet changed to:', getActivePet()?.name 'Unknown'); console.groupEnd();</pre>	

Log Custom

Code Sample	Code Output
<pre>// Save the current state of pets and active pet ID to localStorage function persistPets() { localStorage.setItem('pets', JSON.stringify(pets)); localStorage.setItem('active_pet_id', activePetId); //good example of console.info console.info('Persisted pets to localStorage. Active Pet Name: \${getActivePet()?.name 'Unknown'}'); const styles = `color: green;     font-weight: bold;     border: 5px solid green;     padding: 4px; border-radius: 4px;     background-color: #e0ffe0;     padding: 30px;     font-family: 'Segoe UI', Tahoma, Geneva, Verdana, sans-serif;     font-size: 15px;     `; console.log('%c Pets state has been saved to localStorage:', styles); console.table(pets); } console.log('%c Pets state has been saved to localStorage:', styles);</pre>	Pets state has been saved to localStorage: script.js:191

View Messages Caused By The Browser

Cause 404 Network Error

When I go to /test or some page that doesn't exist it gives the following:

```
✖ GET http://127.0.0.1:5500/test 404 (Not Found) test:1 ⓘ
✖ Connecting to 'http://127.0.0.1:5500/.well-known/appspecific/com.chrome.devtools.json'
violates the following Content Security Policy directive: "default-src 'none'". The
request has been blocked. Note that 'connect-src' was not explicitly set, so 'default-
src' is used as a fallback.
> ctrl i to turn on code suggestions. Don't show again
```

Cause Type Error

Typing in console `null.f()` throws a type error because it is not a type of f

```
> null.f()
✖ ▶ Uncaught TypeError: Cannot read properties of null (reading 'f') VM11084:1
    at <anonymous>:1:6
> |
```

Cause Violation

```
[Violation] 'click' handler took 2999ms script.js:60
```

Filter Messages

Filter by Log Level

Filter by Text

Filter by Regular Expression

Filter by Message Source

The screenshot shows the Chrome DevTools Console with a filter applied: `Filter`. The filter results show a sequence of log messages from `script.js`. The messages are:

- `Persisted pets to localStorage. Active Pet Name: test` (script.js:179)
- `Pets state has been saved to localStorage:` (script.js:191)
- A table showing pet data (script.js:192):

(index)	id	name	weight	happiness	image	activity_l...
0	'177757625...	'test'	84	375	'images/di...	Array(88)
1	'177792874...	'Pet 2'	0	5	'images/di...	Array(1)
- `Array(2)` (script.js:192)
- `Play button clicked. Updated happiness and weight for pet: test Happiness: 375 Weight: 84` (script.js:448)
- `Persisted pets to localStorage. Active Pet Name: test` (script.js:179)
- `Pets state has been saved to localStorage:` (script.js:191)
- A table showing pet data (script.js:192):

(index)	id	name	weight	happiness	image	activity_l...
0	'177757625...	'test'	89	385	'images/di...	Array(89)
1	'177792874...	'Pet 2'	0	5	'images/di...	Array(1)
- `Array(2)` (script.js:192)
- `Persisted pets to localStorage. Active Pet Name: test` (script.js:179)
- `Pets state has been saved to localStorage:` (script.js:191)
